

PRINTABLE CHRISTMAS COUNTDOWNS

Print out desired countdown preferably on cardstock.

Cut a piece of foam board or poster board to glue it onto.

Chalkboard Contact Paper: Trace opening from your countdown onto paper. Use that as a pattern to cut out your piece of chalk contact paper.

Chalk Paint: Paint carefully in the opening of the countdown. Two coats works best.

Cut & glue easel piece onto back of foam board if you like or make the stand alone easel shown.

Countdowns can also be attached onto a wall with two sided tape or onto a fridge using tape or a magnet sheet.

EASEL PIECE FOR FOAM BOARD

Cut out pattern and trace onto a small piece of foam board. Glue as shown to the back of any countdown you'd like standing up on a surface.

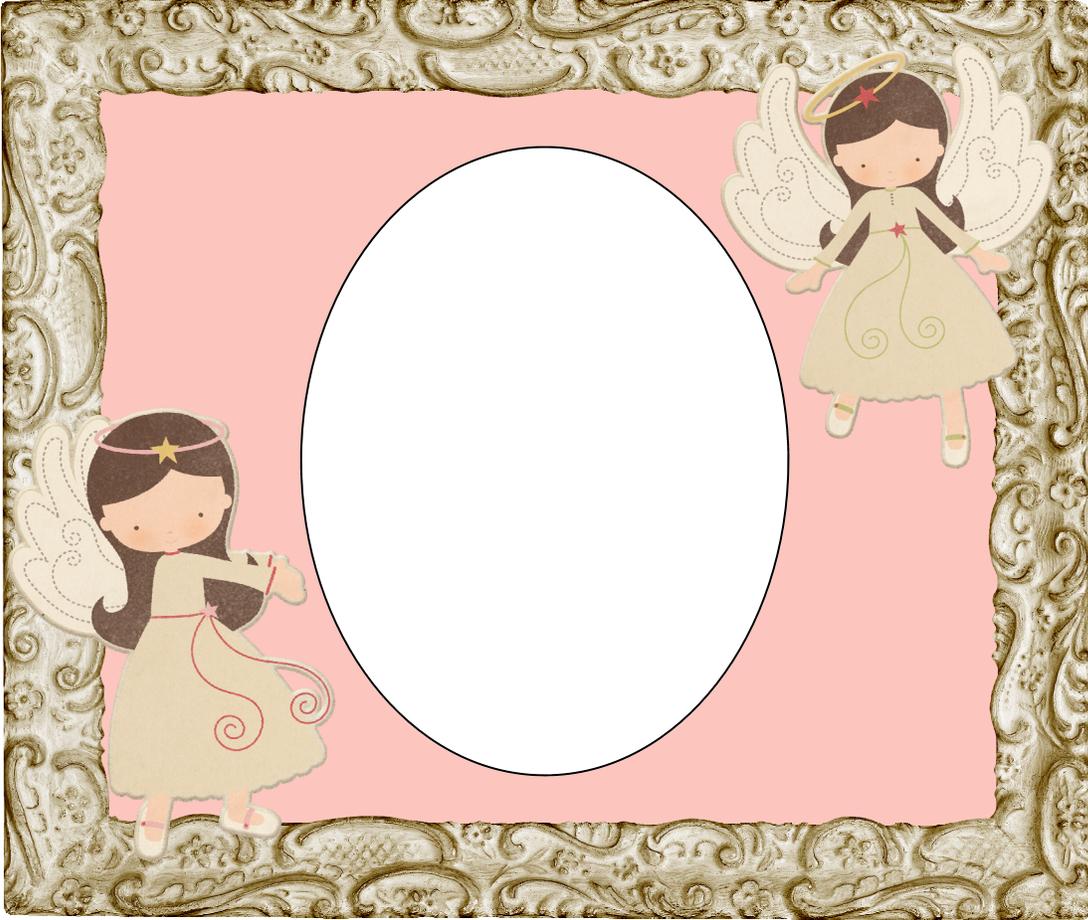

GLUE ALONG THIS EDGE AGAINST BACK OF COUNTDOWN

STAND ALONE EASEL

Fold small piece of poster board in half and trace this onto the fold. Cut out and use as a stand alone easel.

PLACE THIS EDGE AGAINST THE FOLD

You can keep the border on this one or cut out just the candy cane circle and holly leaves which I did.
